Y2 Science Knowledge Organiser – Plants, Bulbs and Seeds

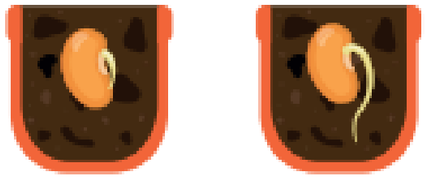

Vocabulary	
Plant	A living thing that usually grows in soil
Bulb	A part of a plant which stores food and is found underground
Seed	A part of a plant that can grow into a new plant
Shoot	A part of a young plant that grows above the ground
Root	Part of a plant that holds the plant in the ground
Sunlight	The light from the sun
Temperature	A measure of how hot or cold something is
Compost	A material to help plants grow
Observe	To look closely at something

Bulbs are planted underground, then as the soil warms up, it starts to grow causing the bud and foliage to push its way through the soil into the light

Bulb

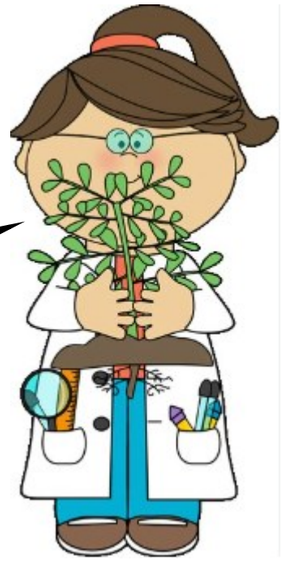

Seed

growth – when a living thing gets bigger

This plant is growing well

This plant is not growing well
