### Teams Trial for Year Five

Dear Parents and Carers,

As mentioned in the Remote Learning letter sent out last week, we are constantly reviewing our remote learning policy and looking at ways in which it can be developed to provide our pupils with a high-quality education whilst learning at home. We recognise that whilst YouTube has been excellent in allowing us to share recorded lessons, we have been exploring how we can provide further support and scaffolds for children.

For that reason, from next week, we are trialling Teams for Year Five. This will enable us to continue with our video recordings whilst also making it simpler for parents/carers and pupils to submit learning to teachers and simpler for teachers to provide effective feedback. If this is successful, we then hope to roll this out for Years One to Four in the coming weeks. However, we are mindful of ensuring that whatever we do does not create additional pressure on parents/carers with logging on and accessing the learning.

To ensure that the process is as streamlined as possible, we have created some steps that you can follow below. If you are unable to access Teams during this trial, then lessons will still be supplied through YouTube.

Please note, it will be beneficial to get all pupils (even those still attending school) set up on this so it can support their learning in school and further develop their digital literacy. Once set up, pupils attending school should bring in their login details so they can continue to access this platform at school.

#### Login Details

The school has set up an account for each child to access Teams. We recommend you attempt to login with these details ahead of the sessions starting on Monday, 18<sup>th</sup> January. Each child's username will follow the pattern of the number 15, followed by their forename and then the letter of their surname.

e.g. [15MichaelF@greenridgeacademy.co.uk](mailto:15MichaelF@greenridgeacademy.co.uk)

Each child's password will be their initials followed by their date of birth, which should be 6 or 5 digits.

e.g. MF250711 (for 25<sup>th</sup> July 2011) or MF60711 (for 6<sup>th</sup> July 2011)

If the first number is a single digit (i.e. before the 10<sup>th</sup>), then the date part of the password will be five digits.

If you are having any issues with logging on, then please email the year group email account and Mr Ventin will be able to provide further assistance.

### How to use our school's Microsoft Class Team

Please help your child to follow these steps so they can continue to complete learning activities, hand them in, and get feedback from teachers while they can't come into school.
