

Sing a Rainbow

Powerful Knowledge

Glossary	
Term	Definition
Rainbow	An arch of colours visible in the sky.
Colours	The appearance something has due to how it reflects light.
Mix	Mixing colours together to create different colours.
Weather	Weather is the way the air and the atmosphere feels. It includes the outside temperature, strength of the wind, and whether it is raining, sunny, hailing, snowing, sleet, foggy, or cloudy. The weather changes regularly and tends to be different during different seasons and across different countries.
Seasons	There are four seasons: Spring, Summer, Autumn and Winter. The length of a day varies depending on the season.
Sun	The star round which the earth orbits.
Wind	A movement of air.
Rain	When moisture in the air falls.
Cloud	A visible mass of water vapour floating in the air.

Colours of a Rainbow

Matching

Mixing

Naming

What colours do you know and what happens when you mix them?

Connectivity

Sing a Rainbow

Connectivity

Prior learning

- The great outdoors, where we learnt about the local area, different seasons, planting/ growing and started in to investigate weather.

Current learning

- What colours are in the rainbow? What order are they in?
- When do we see a rainbow?
- What is the weather like today?
- What season are we in?
- What months are in this season?
- What is the weather usually like in the summer season?
- Do all countries have four seasons?
- What can you do outside when it's sunny/ snowing?

Future learning

- Geography Links within National Curriculum
