Year Four 11B411 – Wildlife Warriors
Friday, 8th December 2023

Dear Parents and Carers,

In previous years for this 11B411 promise, each class planted trees to celebrate 'Wildlife Warriors' and to further support the school's vision of sustainability and caring for the planet. Last year, to further develop this promise, Year Four were tasked with creating bird boxes and bug houses to help the wildlife in our school grounds thrive. This was a very enjoyable and educational experience, and their creations are flourishing. This year, Year Four will be completing the same construction workshop but sending them back with our experts to help another community. As the experts are volunteers and it is an on-site activity, we will not be asking for a monetary contribution.

In small groups, on **Friday, 8th December**, the children will be researching suitable structures for birds and insects, and will then apply this knowledge by designing, constructing and decorating bird boxes and bug houses. This also links to a Spring Term Science topic, The Big Build, where the children will be studying the habitats of various animals. An expert will be leading the activity and explaining how the small changes we make in our school grounds (or in our local communities) can have a huge impact on the environment.

Thank you for your continued support and if you have any further questions about the experience, please do come and speak to us.

Yours faithfully,

Mr. Tom Arnold
11B411 Ambassador
