

SHOW RACISM THE RED CARD

Dear Parents and Carers,

Show Racism the Red Card is a UK wide charity that provides education and training to pupils, students, teachers and other adults on equality and diversity issues, particularly racism. We work with schools, football clubs right and organisations across the country and have helped over 1,343,000 million people understand the importance of embracing diversity.

This is especially significant given the growing prejudice against certain groups and the widespread discussions about immigration, spanning from local high streets to debates in Westminster. Despite this, we maintain a non-political stance and prioritize ensuring that every voice is heard.

Our workshops are designed as discussion based learning. It is important to note that we are not there to label anyone, force a political opinion on students nor cast accusations at anyone, simply to discuss what it is that the pupils/students really think and feel about these issues and doing so in a safe environment.

We talk about terminology, stereotypes and de-bunking popular myths. Our workshops emphasise respect and listening and are fully inclusive and cater for all abilities.

We will shortly be visiting your child's school for workshops. When your child/children come home they might wish to talk about what they've learned, or ask you questions. If you need assistance or have any questions of your own please contact the school in the first instance who can then refer you to us for any additional support/guidance.

Best Regards,

Show Racism the Red Card
